ROB BAUMGARTEN - APPROVED

stated that Mr. Baumgarten has been before the COA Subcommittee and Tulsa Preservation Commission several times before; mainly due to the discrepancy of the setback on this project. He stated that the COA Subcommittee has advised Mr. Baumgarten to make some changes to his plans. Mr. Fox stated that Mr. Baumgarten has submitted revised plans with new elevations of the new construction project for the commission to review that were suggested by the COA Subcommittee. Mr. Fox stated that the COA Subcommittee (recommended approval) and the TPC approved Mr. Baumgarten’s new construction project according to the Yorktown new construction design guidelines. The TPC based its decision to approve this project excluding the discrepancy of the setback issue.

Mr. Fox stated that several Yorktown neighborhood residents support Mr. Baumgarten’s new construction project; and that only one neighborhood resident opposed. He stated that Mr. Mark Radzinski, President of the Yorktown Neighborhood Association has submitted a letter to the commission for review with an attached petition showing that he and several other neighborhood residents support the change in the new designs made by Rob Baumgarten regarding the new construction project at 1860 E. 17th Street.

TPC Vice-Chairman/COA Subcommittee Chairman Turner stated that the COA Subcommittee recommended by a unanimous vote at the June 21, 2005 meeting to approve Mr. Baumgarten’s application and forward its recommendation to the TPC with conditions. He stated that he wanted the commission to understand that it was an unfortunate situation under the circumstances that led to Mr. Baumgarten’s house being under construction and being under violation are due to the discrepancy of the setback of this structure. He stated that the conditions were:

- That the applicant remove the structural beam from east to west to support the porch columns;
- Open gable on the east end of the porch;
- Remove the fire place and eliminate the chimney; 
- The foundation should be approximately 16 inches from grade that will be covered in brick.

TPC Vice-Chairman/COA Subcommittee Chairman Turner stated after reviewing Mr. Baumgarten’s revised plans and elevations that he believes that he has provided them (the commission) with the necessary information requested. TPC Vice-Chairman stated that Mark Radzinski and Susan McKee attended the June 21, 2005 COA Subcommittee meeting; and that they both were supportive of the new construction project. He stated that he believed that Mr. Radzinski was speaking on behalf of several other neighborhood residents that also supported the project.

The Subcommittee’s decision to recommend approval of this project was based on the appropriate design guidelines for New Residential Construction for the
Yorktown Historic District application and forwarded its recommendation to the TPC

After careful consideration of the information and materials presented to the commission to make a final determination, TPC Vice-Chairman Turner made a motion to support the COA Subcommittee’s recommendation to **APPROVE Mr. Baumgarten’s application**. Mr. Ball seconded.

Mr. Baumgarten stated that he had a letter written by Mark Radzinski (dated June 27, 2005) to the Board of Adjustment with an attached petition supporting his new construction project. Chair Townsend asked that this letter/petition be part of the records regarding this project.

Mr. Gilmore stated that he would like the minutes to reflect that the commission’s approval of this project is due to the fact that the Yorktown neighborhood has supported the setback violation of the guidelines; and therefore the commission’s actions are based on the neighborhood’s support of this new construction project.
