Susan McKee introduced herself as being President of The Coalition of Historic Neighborhoods of Tulsa; and that she resides at 1616 N. Victor Avenue in Tulsa. Ms. McKee read her April 13, 2006 letter verbatim to the commission. She stated that she had been asked by all associations from the five (5) districts to present this proposal on behalf of present and future Historic Preservation (HP) Districts. She asked the TPC, with the aid of the CLG, to consider helping them sponsor and set up a process to study their present Design Guidelines with the possibility of standardizing them to be applicable to all HP Districts in the City of Tulsa.

Ms. McKee stated that they see this as a multi-step process which would include:

- Polling the residents of all Historic Districts;
- Co-sponsoring a series of public meetings in each district to educate residents and receive input on the process;
- Hiring an external consultant to evaluate their present Design Guidelines and make recommendations;
- Setting up a task force; and
- Pushing forward the changes as agreed upon by all parties involved.

Ms. McKee stated that by standardizing the Design Guidelines they feel the process of obtaining a Certificate of Appropriateness will be more efficient for all concerned. She requested that this letter become part of the record/minutes.

Swan Lake resident, Mr. Chip Atkins stated that he will be speaking as a citizen. He stated that this was a streamline process of getting neighborhoods back on into the process. Mr. Atkins stated that they were having in their neighborhoods, arguments, threats, death threats and yard burnings and so forth when the guidelines were being written. He stated that it has happened in the past and that he hopes that it won’t happen in the future when they standardize the Design Guidelines.
Mr. Steven A. Novick, President of the Ranch Acres Homeowner’s Association stated that the Ranch Acres neighborhood is requesting funding for an intensive-level survey in fiscal year 2007. He stated that the neighborhood is comprised of approximately 400 mid-twentieth century ranch homes. From its inception, the current Homeowner’s Association and its membership have overwhelmingly endorsed designation of the neighborhood as a historic district on the National Register of Historic Places.

Mr. Novick stated that Ranch Acres was identified by the TPC as potentially eligible for National Register designation in its last windshield survey. He stated that in June of 2005, Jim Gabbert from SHPO and local preservation consultant Cathy Ambler toured the neighborhood and both opined that Ranch Acres would be eligible for National Register designation. Mr. Novick stated that Ranch Acres may be one of the finest contiguous collection of ranch homes to be found anywhere in the South Central region of the country. He stated that they propose a joint financial effort to secure the placement of Ranch Acres on the National Register of Historic Places. They are asking the TPC to underwrite 60% of $8,000.00 for the survey and nomination for Ranch Acres or $4,800.00. Mr. Novick stated that the Ranch Acres Homeowner’s Association will match the remaining 40% of the cost. He stated that the City benefits from the designation of another historic neighborhood, because designated neighborhoods attract new businesses and residents.

Mr. Novick stated that the Ranch Acres Homeowner’s Association asks the Tulsa Preservation Commission to consider its proposal for the FY 2007 funding year; and that he believed if they work together, that they can get it done.

Chairman Turner asked Ms. DeCort if she would like to announce staff’s recommendations on the FY 2006-2007 CLG Grant/Application.

5. New Business

Mr. Mark Radzinski stated that he came to this meeting today to ask the commission to agree with him on some preservation issues. He stated that with the review of the new changes in Administration, City Ordinance and Zoning Codes that he believes that now is the time that there should be a mechanism by Ordinance that information should be relayed to a new owner of the property in an hp district. Mr. Radzinski believes that this information should be part of the Ordinance for new owners to be informed that their house is in a particular hp district and what the requirements are. He also believes that there should be an educational program for the realtors. Mr. Radzinski believes that when the realtors show houses in hp districts that the new owners should be told at that time that if they decide to make any exterior changes to the home that there are additional requirements. He believes that if there’s a requirement by Ordinance that you have to transmit this information at closing as you would about lead base painting.

Chairman Turner and the commission members explained to Mr. Radzinski of the issues that he had brought to their attention that his requests were in the making.
