Applicant: John Taylor
COA Subcommittee Review Date: None
Request:

1. Replace entire roof with asphalt composition shingles, including two small portions of slate roof flanking front dormer.
2. Replace asphalt composition shingles on barrel roof of front entry portico with copper material.

Monty McElroy presented Mr. Taylor’s Certificate of Appropriateness application to the Commission and read the applicable guidelines for this district. Mr. Taylor was present to answer questions.

Mr. Taylor showed samples of shingles for the main roof and pictures of metal roofing material for the entry portico. He talked about and showed pictures of a proposed metal material somewhat resembling copper.

Commissioners decided to vote on each item separately.

Commissioners discussed replacement of the slate portions of the roof with asphalt shingles, and expressed concern with the proposed new product’s lack of color variation and style not closely resembling the original slate roof.

Commissioner Townsend made a motion to deny Item #1 of the application. Commissioner Smallwood seconded the motion. Chairman Bergman asked for a vote on the motion.
